

Press Release

Network International among first acquiring banks in Egypt to integrate with national payment scheme Meeza

Cairo, Egypt –9 October 2018: Network International, a leader in payments solutions in Africa, today announced that the banks with whom the company partners are now fully integrated and certified to process transactions from the new Egyptian national payments scheme Meeza.

The latest development complements Network International’s ongoing efforts to support the Central Bank of Egypt’s initiatives to reduce dependence on cash and advance the local payments infrastructure.

“The commitment to Egypt, the Middle East and Africa to give entrepreneurs, corporations and government bodies intuitive, secure and smart payment solutions, is central to our work at Network International,” says **Hany Fekry, Managing Director, Network International - Egypt**. “Being among the first to integrate with the National Payment Scheme reinforces our collective efforts to streamline operations, improve profitability for our customers and support the Government’s initiatives to boost electronic payments in the country.”

“Businesses in the region need increasingly sophisticated solutions that are versatile. With the technology-led focus of Network International, we plan and design solutions that our customers need, and we make them a reality,” says **Rafik El Raheb, Chief Information Officer - Africa, Network International**. “The latest cloud technology and data centre facilities, automated resource allocation and scalable IT and network capacity is what we offer, as well as a wealth of knowledge and experience gained throughout Africa, the Middle East and beyond,” he added.
