

### **Press Release for Venture by Shahid**

Venture by Shahid is a department founded by Shahid Law Firm dedicated to helping and supporting the startups' ecosystem through easy to use and transparent legal advice.

This department will invest in the growth and development of a startup through providing a suite of legal services tailored towards the needs of each startup it engages, using a cost-efficient model and advanced technology. Venture by Shahid will also leverage its extended network of investors and lenders to startups in need of funding.

In addition to offline meetings with the startups, the legal services will be provided through an easily accessible online platform (<http://Venture.shahidlaw.com>); a first of its kind to be set up by a Law Firm in Egypt.

Startups will be offered subscription-based fee packages that will take into consideration the projected equity invested in the business.

The services will mainly consist of incorporation of companies, drafting of all standard forms of the agreements that are essential for the startup to become investor ready, first round financing documents and joint venture agreements, as well as advising on corporate structures and compliance matters.

*"We are looking forward to contribute in the success stories of the startups".*
