### Commenting on the FY 2020 performance, management stated:

"Our Group has demonstrated resilient performance in 2020, despite an unprecedented challenging year, fueled by the strong performance of our non-banking financial services (NBFS) platform and solid balance sheet. Our financing businesses successfully expanded their financing portfolios to a combined EGP 10.3 billion, with a staggering annual growth rate of 24%. Net interest income stood at EGP 845 million in FY 2020, up 13% y-o-y, yielding a blended NIM of 9.1%. Consolidated net profit after tax and minority reached EGP 475 million, down a moderate 12% y-o-y from an already strong base. The decline in bottom line was a function of challenging equity market conditions, which impacted our brokerage and investment banking platforms' pace of growth, and overheads associated with our fast-growing greenfield initiatives.

On the operational front, Reefy increased its footprint by 70% to 102 branches, while closing 2020 with an outstanding loan book of EGP 1.0 billion, delivering a remarkable 46% y-o-y growth. Corplease concluded an EGP 2.7 billion securitized bond issuance, the largest in its history, enabling it to diversify its source of funding, while maintaining a robust lease portfolio. Our greenfield initiatives, consumer and mortgage finance, continue to expand rapidly, with the latter achieving breakeven, as of FY 2020.

Meanwhile, Taaleem, CI Capital's minority-owned investment, continued to deliver solid results, with EGP 481 million in revenues in FY 2020 and a superior EBTIDA margin of 53%. Taaleem announced, in February 2021, its intention to proceed with an initial public offering (IPO) on the Egyptian Stock Exchange (EGX).

That said, going into 2021, we are optimistic and confident that our various lines of business are in a solid position to capitalize on the ongoing recovery in business activity and capital markets."
