

## The new Dell XPS 15 TGL and XPS 17 TGL

**Cairo – May 30, 2021**

*The creator industry continues to boom, fueled by new platforms, a wave of emerging talent and new ways to connect with growing 'at home' audiences. To push these boundaries of creativity, Dell has introduced the revamped the XPS 15 TGL and XPS 17 TGL.*

**The new XPS 15 TGL**

**The new XPS 17 TGL**

The revamped XPS 15 and XPS 17 devices are available with the latest 11<sup>th</sup> Gen Intel® Core™ processors and Xeon mobile processors. Images and designs come to life on the color accurate InfinityEdge displays, including a new OLED option on the XPS 15. Featuring the latest NVIDIA RTX graphics and backed by the NVIDIA Studio program, these lightweight and stylish devices include everything you need to channel your creativity whenever and wherever inspiration hits.

**Availabilities and pricing:**

The new Dell XPS 15 TGL is available in the Middle East and North Africa from June 2021 at a starting price of \$2,608.

The new Dell XPS 17 TGL is available in the Middle East and North Africa from June 2021 at a starting price of \$3,601.
