Dear Members and Clients of the German-Arab Chamber,

The German-Arab Chamber supports the interests of the Egyptian and the German economy with a view to the introduction of the new, digital customs clearance system Nafeza / ACI. In recent weeks, we have organized series of explanatory webinars involving experts from the responsible authority in Egypt and CargoX. A lot of questions were covered in these webinars.

In this context, it is with great pleasure that we announce new services for our dear members and clients and offer our assistance to the ACI procedure. We have set up a competence center here at the Chamber, ready to assist you in every way possible. If you are a member or a client of the Chamber and you still have not completed your registration on the Nafeza system, you may submit your documents to us and we will take over the registration process with Nafeza for you.

After activating your account, if you need our long-term support for the introduction of the system (questions / troubleshooting / problems) we wish to stay connected with you and assist you in any questions that may arise or troubleshooting that could hinder you from receiving the ACID Number.

If you wish to benefit from our services, kindly contact Ms. May Khattab on [may.khattab@ahk-mena.com](mailto:may.khattab@ahk-mena.com) to start the procedure and get the packages as soon as possible.
