Central Agency for Public Mobilization And Statistics

66.7 billion Cubic meters, total transported quantities of natural gas in 2020/2021

Central Agency for Public Mobilization and Statistics (CAPMAS) issued on 18/12/ 2021 annual bulletin petroleum materials means of transportation and natural gas in Egypt 2020/2021. Most important indicators are as follows:

- Total transported quantities by petroleum products means of transportation reached 91.2 million metric tons in 2020/2021, compared to 86.4 million metric tons in 2019/2020, an increase by 5.6% after excluding the Sumed line in 2019/2020, which reached 64.1 million metric tons.

- Total volume of transported petroleum by railway tankers reached 325.3 thousand metric tons in 2020/2021 at with average a transport cost per ton 111 pounds, compared to 276.9 thousand metric tons in 2019/2020, an increase by 17.5% .
- Quantities transported by lorries reached 22.5 million metric tons in 2020/2021 with average transport cost per ton 65 pounds, compared to 19.2 million metric tons in 2019/2020, an increase by 17.2%.

- Total transported quantities of petroleum products, including (petroleum products, crude, condensates, and Gas stove) by pipelines of petroleum reached 59.8 million metric tons in 2020/2021 with average a transport cost per ton (532, 456, 184 ,406) pounds, compared to 59.1 million tons in 2019/2020 ,an increase by1.2%.
- Quantities of crude oil and petroleum products in leased coastal tankers reached 8.6 million metric tons 2020/2021 with average a transport cost per ton 98 pounds per ton, compared to 7.8 million tons in 2019/2020 an increase by 10.5%.
- Quantities transported from natural gas reached 66.7 billion cubic meters, of which :
 - 62.1 billion cubic meters for local market at a rate of 93% .
 - 4.6 billion cubic meters for export at a rate of 7% with an average cost of transporting cubic meters 0.04 pounds in 2020/2021 compared to 61.2 billion cubic meters in 2019/2020 ,an increase by 9%.
- Total cost of natural gas transportation 2.7 billion pounds while total cost of petroleum products transportation reached 30.6 billion pounds in 2020/2021.
