Chimera Capital Limited, an ADGM-regulated fund manager and wholly-owned subsidiary of Chimera Investment, an Abu Dhabi-based private investment firm managing a diversified international portfolio of listed and private equities, announced today the second close of its Alpha Wave Ventures II fund at USD 10 billion.

The Alpha Wave Ventures II fund is Chimera's second venture capital fund. Through the Fund we will be investing in dynamic, tech-driven businesses that are providing innovative solutions to key problems, contributing to the development of the local knowledge economy while strengthening Abu Dhabi's position as a hub of innovation and technology. Meanwhile, the launch of our second product in this unique and increasingly popular asset class will further facilitate our clients' access to Chimera's network and expertise."

**Seif Fikry, Chief Executive Officer of Chimera Capital, added:** "Building on the successful launch of five ETFs and a global venture capital fund, and the strong track record of successful fund deployments and deal executions developed over the past three years, we look forward to co-managing the Alpha Ventures II fund with our partners. Looking ahead, we will continue to leverage our extensive expertise, world-class systems and market edge to ensure we remain ahead of the curve, managing investments in an array of diversified assets and delivering the best value and returns for our investors."
