Independent auditors' report

To the Shareholders of Orascom Construction PLC

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Orascom Construction PLC ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Dubai International Financial Centre ("DIFC"), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters (continued)

1 Accounting for construction contracts

Refer to notes 13 and 25 of the consolidated financial statements

Key audit matter

The Group recognises revenue and profit based on the progress of the construction contracts which is assessed with reference to the proportion of contract costs incurred for the work performed as at the reporting date, relative to the estimated total costs of the contract at completion. Therefore, the recognition of revenue and profit relies on estimates made by management in relation to the final out-turn of revenue and costs on each contract. Any changes to these estimates could give rise to material variances in the amount of revenue and profit/loss recognised in a given financial period.

The final out-turn of a construction contract may be affected by subsequent variations from the initially agreed scope of work and claims arising under the contract. The amounts to be included in the estimated revenue depends on the Group's estimate of the amount which is highly probable and that significant subsequent reversal will not occur when the uncertainty associated with these variations are resolved. In addition, the estimated total costs of a contract may also include various cost contingencies or disputed claims against the Group, which are specific to respective contracts. These contingencies are reviewed by the Group's management on a regular basis throughout the contract life and adjusted where appropriate.

There is a high degree of risk and significant management judgment associated with estimating the amount of revenue to be recognised by the Group based on the final out-turn on contracts; assessing the level of the contingencies; and recognising variations and claims. Accordingly, revenue recognition from construction contracts is considered a key audit matter.

How our audit addressed the key audit matter

Using a variety of quantitative and qualitative criteria, we have selected a sample of construction contracts to assess the reasonableness of the significant and complex estimates used by management in accounting for these contracts.

We also obtained the detailed project status reports ("the reports") and assessed, where necessary, the judgments underlying those reports with the audit evidence obtained including discussion with the Group's senior operational, commercial and financial management. In this area, our audit procedures included:

- identifying and testing key controls over the revenue recognition process over construction contracts;
- reviewing the accounting policies adopted by the Group and its compliance with IFRS and ensured these policies had been applied to individual contracts with customers appropriately;

Key Audit Matters (continued)

1 Accounting for construction contracts (continued)

How our audit addressed the key audit matter (continued)

- evaluating the financial performance of contracts against budget, available third-party evidence and historical trends;
- conducting site visits to certain higher risk or larger value contracts, physically observing the progress of individual projects and identifying areas of complexity through observation and discussion with site personnel;
- assessing the reasonableness of the Group's judgment in respect of forecast contract out-turn, contingencies, settlements and the recoverability of contract balances via reference to our own assessments based on certain quantitative and qualitative factors, historical outcomes and industry norms;
- analyzing correspondence and other relevant documents obtained by management from customers around variations and claims and considering whether this information is consistent with the estimates made by the management;
- inspecting selected contracts for key clauses, identifying relevant contractual mechanisms such as liquidated damages, defects liability and warranties and, assessing whether these key clauses have been appropriately reflected in the amounts recognised in the consolidated financial statements;
- assessing whether the amounts recognised in the consolidated financial statements resulting from the estimates and assumptions made represent a balanced view of the risks and opportunities pertaining to each contract position;
- considering whether provisions against contracts sufficiently reflect the level of risk, and challenging management's judgment in this area with reference to our own assessments; and
- considering the adequacy of the Group's disclosures in the consolidated financial statements in respect of contract accounting and the key risks relating to these amounts.

2 Expected credit loss allowances on receivables

Refer to note 9 of the consolidated financial statements

Key audit matter

The Group is exposed to credit risk on its receivable balances including contract receivables, contract assets, and retention receivables. The determination of expected credit loss ("ECL") involves significant estimates and judgement. Key areas involving judgements include current and future looking external factors, probability of default and loss given default.

Key Audit Matters (continued)

2 Expected credit loss allowances on receivables (continued)

Key Audit Matters (continued)

Due to significant judgements and complexities involved in the computation of ECL for determining impairment provision at the year end, this is considered as a key audit matter.

How our audit addressed the key audit matter

- obtaining an understanding of the Group's process for estimating ECL and assessing the appropriateness of the ECL preparation methodology against the requirement of IFRS 9;
- identifying and testing key controls over the process for estimating ECL;
- testing key inputs of the model, such as those used to calculate the likelihood of default and the subsequent loss on default, by comparing to the historical data; and
- assessing the reasonableness of key assumptions and judgments made by the management in determining the ECL allowances including segmentation of receivables, selection of appropriate ECL model, macroeconomic factors and expert credit judgments.

3 Litigation and claims

Refer to note 26 of the consolidated financial statements

Key audit matter

Considering the nature of the Group's operations, it can be exposed to a number of litigations and claims. The recognition and measurement of provisions, contingent liabilities and contingent assets as well as making the necessary disclosures in respect of litigation and claims requires significant judgment by the management in assessing the outcome of each legal case which is based on management's discussion with internal and external legal advisors. Due to the significance of the litigations and claims and the judgment applied in assessing and measuring the resulting outcome, this is considered as a key audit matter.

How our audit addressed the key audit matter

Our audit procedures included the following:

- evaluating the Group's policies, procedures and controls in relation to litigation, claims and provision assessments;
- obtaining inputs from the Group's in-house legal counsel with regards to the Group's litigations and claims, making independent enquiries and obtaining confirmations from external lawyers to understand the background of each case, legal position and the material risks that may impact the Group's consolidated financial statements; and

Key Audit Matters (continued)

3 Litigation and claims (continued)

How our audit addressed the key audit matter (continued)

- assessing reasonableness of judgment made by management in assessing and measuring the current and final outcome of the claim, determining the adequacy of the level of provisioning or disclosure in the Group's consolidated financial statements in accordance with IAS 37.

4 Accounting for tax

Refer to note 11 of the consolidated financial statements

Key audit matter

The Group operates in a number of tax jurisdictions. The complexities of local and international tax legislations require an understanding of the applicable tax laws and regulations in these jurisdictions. Furthermore, the recognition of deferred tax assets involves significant judgment and estimates with regards to the Group's future operations and the applicable tax laws in the respective jurisdictions and, as a result, this is considered as a key audit matter.

How our audit addressed the key audit matter

Our approach included:

- identifying and testing key controls over calculation for income tax and deferred tax;
- involving our tax specialists to assess the Group's tax positions including deferred tax assets, its compliance with the relevant tax legislations, to analyse and challenge the assumptions used by management in determining the tax provisions;
- for the purpose of assessing the valuation of deferred tax assets recognised in the Group's statement of financial position, we have reviewed and assessed the reasonableness of the assumptions used in projecting the Group's future taxable profits, the availability of tax losses in the respective jurisdictions and the expected tax planning strategies; and
- considering the adequacy of the Group's tax disclosures in the consolidated financial statements and its compliance with IFRS.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Other Information (continued)

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and their preparation in compliance with the applicable provisions of the Companies Law pursuant to DIFC Law No. 5 of 2018 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- Obtain sufficient appropriate audit evidence regarding the financial information of the components within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the (consolidated) financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on Other Legal and Regulatory Requirements

We further report that the consolidated financial statements comply, in all material respects, with the applicable provisions of the Companies Law pursuant to DIFC Law No. 5 of 2018.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. General

Orascom Construction PLC ('OC PLC') is a Public Company, incorporated with registered number 1752 in the Dubai International Financial Center (DIFC) with its head office located at Gate Village-Building 1, DIFC, Dubai, UAE. OC PLC is dual listed on the NASDAQ Dubai and the Egyptian Stock Exchange. The consolidated financial statements for the year ended 31 December 2021 comprise the financial statements of OC PLC, its subsidiaries and joint operations (together referred to as the 'Group') and the Group's interests in associates and joint ventures.

OC PLC was incorporated on 18 January 2015 as Orascom Construction Limited, a company limited by shares and converted to a Public Company under the Law, DIFC Law No. 5 of 2018 on 12 November 2018.

OC PLC is primarily engaged as an international engineering and construction contractor focused on large-scale infrastructure, complex industrial and high-end commercial projects in the United States, Middle East, Africa and Central Asia for public and private clients.

2. Basis of preparation

2.1 General

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), and applicable requirements of the Companies Law pursuant to DIFC Law No. 5 of 2018 and the Capital Market Authorities in Dubai and Egypt.

The consolidated financial statements have been prepared on the historical cost basis, except when otherwise indicated.

The financial year of OC PLC commences on 1 January and ends on 31 December.

These consolidated financial statements are presented in US dollars ('USD'), which is OC PLC's presentation currency. All values are rounded to the nearest tenth million (in millions of USD), except when stated otherwise.

The consolidated financial statements have been authorised for issue by the Company's Board of Directors on 21 March 2022.

3. Summary of significant accounting policies

3.1 Consolidation

The consolidated financial statements include the financial statements of OC PLC, its subsidiaries and the proportion of OC PLC's ownership of joint operations.

Subsidiaries

Subsidiaries are all companies to which OC PLC is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its control over the investee, generally accompanying a shareholding of more than half of the shares issued and related voting power. In assessing control, potential voting rights that are presently exercisable or convertible are taken into account. Subsidiaries are fully consolidated from the date that control commences until the date that control ceases. When OC PLC ceases to have control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognized in profit or loss including related cumulative translation adjustments accumulated in other comprehensive income. If it becomes an associate, the interest retained is subsequently valued in accordance with the equity method. The principal subsidiaries are listed in Note 29.

Transactions eliminated in the consolidated financial statements

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of OC PLC's interest in the investees. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.2 Discontinued operations / assets held for sale

A discontinued operation is a component of OC PLC's business which:

- has operations and cash flows that can be clearly distinguished from the rest of OC PLC;
- represents a separate major line of business or geographical area of operations;
- is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations; and
- is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale. When an operation is classified as a discontinued operation, the comparative information in the statement of comprehensive income and the consolidated statement of cash flows are reclassified as if the operation had been discontinued from the start of the comparative period. In the statement of financial position, the comparative numbers are not reclassified.

3.3 Business combinations

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss. Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument, is measured at fair value with changes in fair value recognized either in profit or loss or as a change to other comprehensive income. Contingent consideration classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Non-controlling interests

Non-controlling interests are presented as a separate component in equity. Changes in the Group's interest in a subsidiary or joint operation that do not result in a loss of control are accounted for as an equity transaction.

3.4 Associates

Associates are those companies in which the Group exercises significant influence, but does not have control over the financial and operating policies, which is presumed to exist when the Group holds 20 percent to 50 percent of the shareholding and related voting rights of the other entity. Associates are accounted for by applying the 'equity method'. The Group's share of profit or loss of an investee is recognized in profit or loss from the date when significant influence begins up to the date when that influence ceases. Investments in associates with negative shareholder's equity are impaired and a provision for its losses is recognized only if the Group has a legal or constructive obligation to cover the losses. Equity changes in investees accounted for using the equity method that do not result from profit or loss are recognized directly in other comprehensive income. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Unrealized gains on transactions between two associates are not eliminated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.5 Joint arrangements

Under IFRS 11 investments in joint arrangements are classified as either joint ventures or joint operations depending on the contractual rights and obligations of each investor. Those joint arrangements that are assessed as joint ventures are accounted for using the equity method. Joint operations are accounted for using the line-by-line accounting.

Under the equity method of accounting, interests in joint ventures are initially recognized at cost and adjusted subsequently for the group's share in the post-acquisition profit or losses and movements in comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interest that, in substance, forms part of the Group's net investment in joint ventures), the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

A joint operation is proportionately consolidated until the date on which the Group ceases to have joint control over the joint operation. Upon loss of joint control, the Group reassesses the joint operation.

3.6 Foreign currency translation

Foreign currency transactions

The financial statements of subsidiaries and joint operations are prepared in the currencies which are determined based on the primary economic environment in which they operate ('the functional currency'). Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the transaction dates. At each balance sheet date, monetary items denominated in foreign currencies are translated into the entity's functional currency at the then prevailing closing-rates. Exchange differences arising on the settlement and translation of monetary items are included in profit or loss for the period except when deferred to other comprehensive income for investment in equity securities designated as at fair value through OCI (FVOCI) and the effective part of qualifying cash flow hedges.

Foreign operations

Upon consolidation, the assets and liabilities of subsidiaries with a functional currency other than the US dollar are translated into US dollars using the exchange rates prevailing at the balance sheet date. Income and expense items are translated using exchange rates prevailing at the date of the transactions. Investments in joint ventures and associates with a functional currency other than the US dollar are translated into US dollar using exchange rates prevailing on the balance sheet date. Exchange rate differences arising during consolidation and on the translation of investments in subsidiaries, joint arrangements and associates are included in other comprehensive income, as 'currency translation adjustments'. When a foreign operation is (partly) disposed of or sold, (the proportionate share of) the related currency translation differences that were recorded in other comprehensive income are recycled to profit or loss as part of the gain and loss on disposal or sale. Goodwill and fair value adjustments arising on the acquisition of a foreign subsidiary are considered as assets and liabilities denominated in the functional currency of the foreign subsidiary.

3.7 Financial instruments

I. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

II. Classification and subsequent measurement

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment:

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest:

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Subsequent measurement – financial assets

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see accounting policy on impairment). Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income is calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

III. Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

IV. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.8 Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date (original maturity) that are subject to an insignificant risk of changes in their fair value and are used by the Group in the management of its short-term commitments. Restricted cash comprises cash balances where specific restrictions exist on the Group's ability to use this cash. Restricted cash includes cash deposited as collateral for letters of credit issued by the Group.

3.9 Share capital

Ordinary shares are classified as equity. Share premium is the excess amount received over the par value of the shares. Incremental costs directly attributable to the issue of new shares are recognized in equity as a deduction, net of tax, from the proceeds. When ordinary shares are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is recognized as a deduction from 'Reserves'. Repurchased shares are classified as treasury shares and are presented in 'Reserves'. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in 'Reserves', and the resulting surplus or deficit on the transaction is presented in share premium.

3.10 Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any impairment. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes cost of material, direct labour, other directly attributable cost incurred to bring the asset ready to its intended use, cost of asset retirement obligations and any capitalized borrowing cost.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment. When parts of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in profit or loss. Subsequent expenditures are capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance costs are expensed as incurred. Spare parts of property, plant and equipment are recognized under property, plant and equipment if the average turn-over exceeds 12 months or more, otherwise they are recognized within inventories.

Property, plant and equipment under construction

Expenditures incurred for purchasing and constructing property, plant and equipment are initially recorded as 'under construction' until the asset is completed and becomes ready for use. Upon the completion of the assets, the recognized costs are reclassified from 'under construction' to its final category of property, plant and equipment. Assets under construction are not depreciated and measured at cost less any impairment losses.

Depreciation

Items of property, plant and equipment are depreciated on a straight line basis through profit or loss over the estimated useful lives of each component, taking into account any residual values. Land is not depreciated. Items of property, plant and equipment are depreciated from the date that they are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for items of property, plant and equipment are as follows:	Years
Buildings	10 - 50
Equipment	5 - 25
Fixtures, fittings and scaffolding	3 - 10

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

Borrowing costs

Borrowing costs attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to get ready for their intended use or sale, are recognized as part of the cost of those assets. All other borrowing costs are recognized as 'Finance cost' in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.11 Goodwill

Goodwill represents the excess of the cost, being the excess of the aggregate of the consideration transferred including the amount recognized for non-controlling interest, of an acquisition over the fair value of the Group's share in the net identifiable assets and liabilities assumed of the acquired subsidiary at the date of acquisition.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the gain is recognized in profit or loss.

Goodwill on acquisition of entities that qualify as subsidiaries is presented under 'Intangible assets'. Goodwill on acquisitions of entities that qualify as associates or joint ventures is included under Equity accounted investees. Goodwill on acquisition of subsidiaries is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or group of units that are expected to benefit from the business combination through which the goodwill arose, based on past experience.

Goodwill is initially measured at cost. After initial recognition, goodwill is measured at cost less any impairment losses. Goodwill is tested annually for impairment; an impairment loss is recognized for the amount by which the cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount of the cash-generating unit is determined by the higher of its fair value less cost to sell and its value in use. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity sold. All other expenditures on internally generated goodwill and other intangible assets are recognized in profit or loss as incurred.

3.12 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories of raw materials, spare parts and supplies cost are based on weighted average principle or the first-in-first-out method, and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. In case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

3.13 Impairment of assets

Non-derivative financial assets

The Group recognises loss allowances for ECLs on:

- financial assets measured at amortised cost;
- debt investments measured at FVOCI; and
- contract assets.

Loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Group measures loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information. The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when:

- the trade receivable is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Measurement of ECLs:

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of impairment

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI, instead of reducing the carrying amount of the asset.

Derivative financial assets

Derivative financial assets are measured at fair value.

Non-financial assets

Non-financial assets that have an indefinite useful life, for example goodwill, are not subject to amortization but are tested annually for impairment or more frequently when indicators arise. Assets with a finite useful life are subject to depreciation or amortization and are reviewed (at least at the balance sheet date) for impairment whenever events or changes in circumstances indicate that the carrying amount may not be fully recoverable. An impairment loss is recognized for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. For the purposes of assessing impairment, assets are grouped based on the lowest level for which there are separately identifiable cash flows (cash-generating units). Impairment is recognized as an expense in profit or loss. Non-financial assets, which are impaired, are tested periodically to determine whether the recoverable amount has increased and the impairment has to be (partially) reversed. Impairment losses on goodwill are not reversed. Reversal of impairments is only permitted if in a subsequent period after an impairment loss has been recognized, the amount of the impairment loss decreases and the decrease can be related objectively to an event after the impairment loss was recognized.

3.14 Provisions

Provisions are recognized when a present legal or constructive obligation as a result of a past event exists, and it is probable that an outflow of economic benefits is required to settle the obligation. The non-current part of provisions is determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Warranties

A provision for warranties is recognized with respect to services performed and goods sold.

Restructuring

A provision for restructuring is recognized when the Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced, the Group has committed itself by public announcement or is expected to commit itself to a restructuring plan.

Onerous contract

A provision for contracts onerous loss is recognized if the Group expects that the unavoidable costs of meeting the obligations under a contract exceed the economic benefits expected to be received under it. A provision for contracts onerous loss is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Legal

The Group is subject to legal and regulatory proceedings in various jurisdictions. Such proceedings may result in criminal or civil sanctions, penalties or disgorgements against the Group. If it is probable that an obligation to the Group exists, which will result in an outflow of resources and the amount of the outflow can be reliably estimated, a provision is recognized.

3.15 Revenue from Contracts with Customers

The Group recognises revenue from contracts with customers based on the five steps model set out in IFRS 15:

Step 1 Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2 Identify the performance obligations in the contract: A performance obligation is a unit of account and a promise in a contract with a customer to transfer a good or service to the customer.

Step 3 Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4 Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group will allocate the transaction price to each performance obligation in an amount that depicts the consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5 Recognise revenue when the entity satisfies a performance obligation.

The Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- i. The customer simultaneously receives and consumes the benefits provided by the Group's performance as and when the Group performs; or
- ii. The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- iii. The Group's performance does not create an asset with an alternative use to the Group and its an enforceable right to payment for performance completed to date.

For performance obligations where none of the above conditions are met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Variable consideration

Variable consideration amounts are estimated at either their expected value or most likely amount and included in revenue to the extent that it is highly probable that the revenue will not reverse.

Significant financing component

The Group evaluates significant financing component, if the period between customer payment and the transfer of goods/ services (both for advance payments or payments in arrears) is more than one year. The Group adjusts the promised amount of consideration for the time value of money using an appropriate interest rate reflecting the credit risk.

Contract modification

A contract modification occurs when the Group and the customer approve a change in the contract that either creates new enforceable rights and obligations or changes the existing enforceable rights and obligations. Revenue related to a modification is not recognised until it is approved. Approval can be in writing, oral, or implied by customary business practices.

The Group treats the contract modification as a separate contract if it results in the addition of a separate performance obligation and the price reflects the standalone selling price of that performance obligation. Otherwise, a modification (including those that only affect the transaction price) is accounted for as an adjustment to the original contract, either prospectively or through a cumulative catch-up adjustment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The Group accounts for a modification prospectively if the goods or services in the modification are distinct from those transferred before the modification. Conversely, the Group accounts for a modification through a cumulative catch-up adjustment if the goods or services in the modification are not distinct and are part of a single performance obligation that is only partially satisfied when the contract is modified.

Cost of obtainment and fulfillment

The Group capitalises incremental costs to obtain a contract with a customer except if the amortisation period for such costs is less than one year.

If the costs incurred in fulfilling a contract with a customer are not in the scope of other guidance - e.g. inventory, intangibles, or property, plant and equipment - then the Group recognises an asset only if the fulfillment costs meet the following criteria:

- Relate directly to an existing contract or specific anticipated contract;
- Generate or enhance resources that will be used to satisfy performance obligations in the future; and
- Are expected to be recovered.

If the costs incurred to fulfill a contract are in the scope of other guidance, then the Group accounts for such costs using the other guidance.

The Group amortises the asset recognised for the costs to obtain and/or fulfill a contract on a systematic basis, consistent with the pattern of transfer of the good or service to which the asset relates. In the case of an impairment, the Group recognises these losses to the extent that the carrying amount of the asset exceeds the recoverable amount.

Revenue from sale of goods

Sales are recognised when control of the products is transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Revenue from the sale is recognised in the statement of profit or loss on when the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

Revenue from construction contracts

As regards the Contracting business lines, the Group has carried out in-depth analysis of a set of contracts that represent material transactions and contract types. The analysis confirms the following conclusions:

- Revenue generated from most construction and service contracts is recognised as a single performance obligation involving the gradual transfer of control. This approach remains consistent with IFRS 15.
- To measure a contract's percentage of completion, the Group uses either a cost-based method or a method based on the physical percentage of completion. For contracts in which the measurement method corresponds to the physical percentage of completion, the introduction of IFRS 15 is unlikely to lead to the recognition of any material adjustments to opening equity.
- Contracting business lines may receive advances, which are mainly intended to secure and limit non-recovery risks in relation to work done for the customer. As a result, analysis has shown that the primary objective of these advances is not to meet the funding requirements of Group subsidiaries. Lastly, advances received are consumed over relatively short timeframes. In conclusion, the Group has taken the view that the IFRS 15 provisions relating to the identification of a financial activity are not met.

In the Concessions business, the Group has not identified any impact on the method for recognising revenue from concession contracts based on the current IFRIC 12 model. Analysis confirms that there is only one performance obligation during the construction phase of the Group's concession contracts. The provisions of concession contracts have not led to the identification of any distinct performance obligation relating to infrastructure maintenance and renewal works. Those works will continue to be subject to specific provisions measured and recognised in accordance with IAS 37.

3.16 Government grants

An unconditional government grant related to an asset is recognized in profit or loss as 'Other income' when the grant becomes receivable. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset. Grants that compensate the Group for expenses incurred are recognized in profit or loss as 'Other income' on a systematic basis in the periods in which the expenses are recognized. Other government grants are recognized initially as deferred income at fair value when there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant, and are then recognized in profit or loss as 'Other income' on a systematic basis over the useful life of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.17 Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - the Group has the right to operate the asset; or
 - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Component's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets in 'property, plant and equipment' and lease liabilities in 'trade and other payables' in the statement of financial position.

Short-term leases and leases of low-value assets

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3.18 Finance income and cost

Finance income comprises:

- interest income on funds invested;
- gains on the disposal of financial assets;
- fair value gains on financial assets at fair value through profit or loss;
- gains on the re-measurement to fair value of any pre-existing interest in an acquired business combination;
- gains on hedging instruments that are recognized in profit or loss and reclassifications of amounts previously recognized in other comprehensive income; and
- interest income is recognized as it accrues in profit or loss, using the effective interest method.

Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

Finance cost comprise:

- interest expense on borrowings;
- unwinding of the discount on provisions and contingent consideration;
- losses on disposal of financial assets;
- fair value losses on financial assets at fair value through profit or loss; and
- impairment losses recognized on financial assets (other than trade receivables).

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss are expensed as incurred.

Foreign currency gains and losses are recognized on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

3.19 Employee benefits

Defined contribution plan

Certain Group subsidiaries provide 'pension plans', 'end of service remuneration plans' and 'long-term service benefits'. These pension plans qualify as defined contribution plans. Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Long-term employee benefits

The Group long-term employee benefits are recognized if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably to determine its present value. The discount rate is the yield at the balance sheet date on triple-A ('AAA') credit rated bonds that have maturity dates approximating to the terms of the Group's obligations. Re-measurements are recognized in profit or loss in the period in which they arise.

Termination benefits

Employee termination benefits are payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. OC PLC recognizes termination benefits when OC PLC is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal, or when OC PLC is providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Share based payments

The fair value of the amount payable to employees under Long-Term Incentive Plan (LTIP), which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the target awards. Any changes in the liability are recognised in profit or loss.

3.20 Income tax

Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends. Current income tax assets and liabilities are offset when there is a legally enforceable right to offset and when the current income tax relates to the same fiscal authority.

Deferred tax

Deferred income tax liabilities are recognized for all taxable temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements ('liability' method). Deferred income tax assets are recognized for all deductible temporary differences, unused carry forward losses and unused carry forward tax credits, to the extent that it is probable that future taxable profit will be available against which the deferred income tax assets can be utilized.

Deferred income tax is not recognized if it arises from initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss. Also, no deferred income tax is recognized regarding the initial recognition of goodwill.

Deferred income tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax relates to the same fiscal authority.

3.21 Segment reporting

An operating segment is a component of an entity that engages in business activities for which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's Chief Operating Decision Maker (CODM) to make decisions about resource allocation to the segment and to assess its performance and for which discrete financial information is available. The Group determines and presents operating segments on the basis of information that internally is provided to the CODM during the period.

3.22 Consolidated statement of cash flows

The consolidated statement of cash flows has been prepared using the 'indirect' method. Cash flows in foreign currencies have been translated applying average exchange rates. Currency translation differences are shown separately in the consolidated statement of cash flows. Cash flows from investing activities consist mostly of investments and divestments in property, plant and equipment, intangible assets, and acquisitions insofar as these are paid for in cash. Acquisitions or disposals of subsidiaries are presented as acquisition of subsidiary, net of cash, acquired. Cash flows relating to capitalized borrowing cost are presented as cash flows from investment activities similar as other cash flows to acquire the qualifying asset.

3.23 Earnings per share

Earnings per ordinary share are calculated by dividing the profit or loss (net) attributable to holders of ordinary shares by the weighted average number of ordinary shares outstanding during the year. In making this calculation the (ordinary) treasury shares are deducted from the number of ordinary shares outstanding. The calculation of the diluted earnings per share is based on the weighted average number of ordinary shares outstanding plus the potential increase as a result of the conversion of convertible bonds and the settlement of share-based compensation plans (share option plans). Anti-dilutive effects are not included in the calculation. With regard to the convertible notes it is assumed that these are converted in full. An adjustment is made to profit or loss (net) to eliminate interest charges, whilst allowing for effect of taxation. Regarding

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

equity-settled share option plans it is assumed that all outstanding plans will vest. The potential increase arising from share option plans is based on a calculation of the value of the options outstanding. This is the number of options multiplied by the exercise price, divided by the average share price during the financial year. This potential increase is only applied if the option has intrinsic value.

3.24 Subsequent events

The Group assesses whether events occurring between the balance sheet date and the date of issues of the Consolidated Financial Statements have given rise to either adjusting events or non-adjusting events. Adjusting events are events that provide evidence of conditions that existed at the end of the reporting period and have to be recognized in the financial statements. Non-adjusting events are those events that are indicative of conditions that arose after the reporting period, these events are disclosed. Changes in estimates are only adjusted if the estimates contain errors.

4. New accounting standards and policies

On a regular basis, the IASB issues new accounting standards, amendments and revisions to existing standards and interpretations.

4.1 Standards, amendments, revisions and interpretations effective to the OC PLC in 2021

There are no significant effects with respect to the adoption of any standards, amendments and revisions to existing standards and interpretations.

4.2 Standards, amendments, revisions and interpretations not yet effective to OC PLC

There are no significant new standards, amendments, revisions and interpretations that may have significant effects on the Group.

5. Critical accounting judgement, estimates and assumptions

The preparation of the financial statements in compliance with IFRS requires management to make judgements, estimates and assumptions that affect amounts reported in the consolidated financial statements. The estimates and assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised or in the revision period and future periods, if the changed estimates affect both current and future periods. The most critical accounting policies involving a higher degree of judgment and complexity in applying principles of valuation and for which changes in the assumptions and estimates could result in significantly different results than those recorded in the financial statements are the following:

Intangible assets

Intangible assets with finite useful lives are carried at cost less cumulative amortization and any impairment. Amortization is calculated using the 'straight-line' method based on the estimated useful lives. Management makes estimates regarding the useful lives and residual values and assumes that amortization takes place on a 'straight-line' basis. The assets' useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. For intangible assets with finite useful lives, OC PLC assesses annually or more frequently whether indicators exist that suggest the intangible asset might be impaired by comparing the recoverable amounts with their carrying amounts. In determining the recoverable amounts of intangible assets, OC PLC makes estimates and assumptions about future cash flows based on the value in use. In doing so, OC PLC also makes assumptions and estimates regarding the discount rates in order to calculate the net present value of the future cash flows.

OC PLC tests at least annually whether goodwill is impaired by comparing the recoverable amounts of cash-generating units with their carrying amounts. The recoverable amount is the higher of the fair value less cost to sell and the value in use. In determining the recoverable amount, OC PLC makes estimates and assumptions concerning future revenues, future costs, future working capital, future investments, Weighted Average Cost of Capital (WACC) and future inflation rates.

Property, plant and equipment

Depreciation is calculated using the 'straight-line' method based on the estimated useful lives, taking into account any residual values. Management makes estimates regarding the useful lives and residual values and assumes that depreciation takes place on a 'straight-line' basis. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. OC PLC assesses annually, or more frequently, whether indicators exist that suggest that an item of property, plant and equipment might be impaired by

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

comparing the recoverable amounts with their carrying amounts. In determining the recoverable amounts of property, plant and equipment, OC PLC makes estimates and assumptions about future cash flows based on the value in use. In doing so OC PLC also makes assumptions and estimates regarding the discount rates to be used in order to calculate the net present value of the future cash flows.

Financial instruments (including trade receivables and contract assets)

The implementation of business model approach under IFRS 9 require judgement to ensure that financial assets of the Group are classified in to the appropriate category. Deciding whether the classified categories will require assessment of contractual provisions that do or may change the timing or amount of the contractual cash flows.

Impairment financial instruments (including trade receivables)

Objective evidence may exist in circumstances in which a counterparty has been placed in bankruptcy, or has failed on the repayments of principal and interest. In other circumstances OC PLC uses judgment in order to determine whether a financial asset may be impaired using ECL model. OC PLC uses judgement in order to determine whether an impairment can be reversed, an assumption in doing so might be an improvement in the debtor's credit rating or receipt of payments due. In addition, Group also make judgments in deciding whether the measurement of expected credit loss reflect reasonable and supportable information that is available without undue cost or effort that include historical, current and forecast information.

Inventories

In determining the net realisable value of inventories, OC PLC estimates the selling prices in the ordinary course of business, cost of completion and cost to sell. In doing so, OC PLC makes estimates and assumptions based on current market prices, historical usage of various product categories versus current inventory levels and specific identified obsolescence risks (e.g. end of life of specific goods and spare parts and the impact of new environmental legislation).

Provisions

Recognition of provisions include significant estimates, assumptions and judgements. IFRS requires only those provisions to be recognized if there is an expected outflow of resources in the near future and if the cost of these outflows can be estimated reliably. Accordingly, management exercises considerable judgment in determining whether there is a present obligation as a result of a past event at the end of the reporting period, whether it is probable that such a proceeding will result in an outflow of resources and whether the amount of the obligation can be reliably estimated. These judgements are subject to change as new information becomes available. The required amount of a provision may change in the future due to new developments in the particular matter. Revisions to estimates may significantly impact future profit or loss. Upon resolution, the Group may incur charges in excess of the recorded provisions for such matters.

The group uses past experiences to estimate the likelihood and cost of future warranties with respect to services provided and goods sold.

OC PLC recognizes a provision for restructuring regarding cost-saving restructuring measures. Provisions for restructuring include, amongst other, estimates and assumptions about severance payments and termination fees.

Provisions for asset retirement obligations, represent estimated costs of decommissioning. Due to the long time frame over which future cash outflows are expected to occur including the respective interest accretion require assumptions. Amongst others, the estimated cash outflows could alter significantly if, and when, political developments affect future laws and regulation with respect to asset retirements.

In case of contracts future loss the Group estimates the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. In doing so, the Group has to estimate the future cash flows and the discount rates used. In addition to this the Group has to estimate any possible impairments.

With respect to legal cases, the Group has to estimate the outcome of the legal cases. Regulatory and legal proceedings as well as government investigations often involve complex legal issues and are subject to substantial uncertainties. The Group periodically reviews the status of these proceedings with both the internal and external legal counsels.

Revenue recognition on revenue contracts with client

The Group conducts a significant portion of its business under construction contracts with customers. The Group recognizes revenue from

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

construction contracts over time using the input method as Group believes this method faithfully represent the transfer of goods or services to the customer over the period of construction contract. This method places considerable importance on accurate estimates of the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. In addition, in determining the transaction price, the Group make significant judgment as to whether any variable consideration to be included in the contract price. The significant estimates include total contract costs, remaining costs to completion, contract price, contract risks, including technical, political and regulatory risks, and other judgments. Management of the operating divisions continually review all estimates involved in such construction contracts, including commercial feasibility, and adjusts them as necessary.

Income taxes

OC PLC is subject to income taxes in numerous jurisdictions. Estimates are required in determining the worldwide provision for income taxes. There are some transactions and calculations for which the ultimate tax position is uncertain during the ordinary course of business. The Group recognizes provisions for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from amounts that were initially recorded, such differences will impact the current income tax and deferred tax provisions in the period in which such determination is made. OC PLC recognizes deferred tax assets to the extent that it is probable that future taxable profits will be available for the deferred tax asset to be recovered. This is based on estimates of taxable future income by jurisdiction in which OC PLC operates and the period over which deferred tax assets are expected to be recoverable. In the event that actual results or new estimates differ from previous estimates and depending on the possible tax strategies that may be implemented, changes to the recognition of deferred tax assets could be required, which could impact the financial position and profit or loss.

Asset held for sale and discontinued operations

OC PLC used judgment in determining what a disposal group or a discontinued operation is and when it qualifies for reclassification according to IFRS 5 (management commitment, ready for sale / demerger, highly probable, completion within one year). In determining what is a disposal group or a discontinued operation, OC PLC judges whether the cash flows of the disposal group or a discontinued operation can be distinguished from the rest of the group, what determines a major line of operation and whether a single coordinated plan to dispose exists and at what date it was formally approved.

6. Financial risk and capital management

Overview

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

These risks arise from exposures that occur in the normal course of business and are managed on a consolidated company basis. This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

Senior management has an overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by the Internal Audit Department. The Internal Audit Department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6.1 Exposure to credit risk

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures. The carrying amount of financial assets represents the maximum credit exposure. With respect to transactions with financial institutions, the group sets limits to the credit worthiness rating of the counterparty. The maximum credit risk is the carrying amount of financial instruments, for an overview reference is made to the tables financial instruments by category.

The major exposure to credit risk at the reporting date was as follows:

\$ millions	Note	31 December 2021	31 December 2020
Trade and other receivables (excluding prepayments)	(9)	1,494.4	1,507.5
Contract work in progress	(13)	1,099.5	854.5
Cash and cash equivalents (excluding cash on hand)	(14)	504.3	471.5
Total		3,098.2	2,833.5

The major exposure to credit risk for trade and other receivables by geographic region was as follows:

\$ millions	31 December 2021	31 December 2020
Middle East and Africa	1,110.3	1,163.0
Asia and Oceania	136.3	147.6
Europe and United States	247.8	196.9
Total	1,494.4	1,507.5

6.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. This is also safeguarded by using multiple financial institutions in order to mitigate any concentration of liquidity risk.

The availability of cash is monitored internally at Group level, on an ongoing basis by the corporate treasury department. In addition management prepared at closing date a cash flow projection to assess the ability of the Group to meet its obligations.

The following are the contractual maturities of financial liabilities, including estimated interest payments and exclude the impact of netting arrangements.

At 31 December 2020 \$ millions	Note	Carrying amount	Contractual cash flow	6 months or less	6–12 months	1–5 years
Financial liabilities						
Loans and borrowings	(18)	115.2	123.8	50.2	52.8	20.8
Trade and other payables (excluding lease obligation)	(19)	1,444.0	1,444.0	1,397.8	-	46.2
Lease obligation	(19)	15.9	20.1	2.9	2.9	14.3
Total		1,575.1	1,587.9	1,450.9	55.7	81.3

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2021 \$ millions	Note	Carrying amount	Contractual cash flow	6 months or less	6–12 months	1–5 years
Financial liabilities						
Loans and borrowings	(18)	64.1	68.3	32.8	34.2	1.3
Trade and other payables (excluding lease obligation)	(19)	1,568.4	1,568.4	1,527.3	-	41.1
Lease obligation	(19)	12.6	19.5	2.7	2.5	14.3
Total		1,645.1	1,656.2	1,562.8	36.7	56.7

The interest on floating rate loans and borrowings is based on forward interest rates at year-end. This interest rate may change as the market interest rate changes.

6.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is exposed to foreign currency risk arising in separate ways:

Foreign exchange translation exposure

Due to the Group's international presence, OC PLC's Financial Statements are exposed to foreign exchange fluctuations as these affect the translation of the subsidiaries' assets and liabilities presented in foreign currencies to the US dollar (the Group's presentation currency). The currencies concerned are mainly Egyptian Pound, Algerian Dinar and Euro. Foreign exchange translation exposure is considered a part of doing business on an international level; this risk is not actively managed, nor is it hedged.

OC PLC is not exposed to Saudi Riyal, UAE Dirham and Qatar Riyal. These currencies are pegged to the US dollar.

Foreign exchange transaction exposure

The Group entities predominantly execute their activities in their respective functional currencies. Some Group subsidiaries are, however, exposed to foreign currency risks in connection with the scheduled payments in currencies that are not their functional currencies. In general this relates to foreign currency denominated supplier payables due to project procurement, capital expenditures and receivables. The Group monitors the exposure to foreign currency risk arising from operating activities.

The Group is exposed to foreign exchange transaction exposure to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of Group companies. The functional currencies of Group companies are primarily Euro, US Dollar, Egyptian Pound, Saudi Riyal, Algerian Dinar and UAE Dirham.

The Group uses foreign exchange contracts to manage its foreign exchange transaction exposure. No hedge accounting is applied; therefore all fair value changes are recognised in profit and loss.

The summary of quantitative data about the Group's exposure to foreign exchange transaction exposure provided to management of the Group based on its risk management policy for the main currencies was as follows:

At 31 December 2020 \$ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	29.5	58.6
Trade and other receivables	150.1	52.8
Trade and other payables	(44.3)	(15.9)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

At 31 December 2021 \$ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	74.4	192.8
Trade and other receivables	317.6	442.5
Trade and other payables	(123.4)	(814.4)

Significant rates

The following significant exchange rates applied during the year ended 31 December 2021:

	Average 2021	Closing 31 December 2021	Opening 1 January 2021
Egyptian pound	0.0637	0.0636	0.0635
Saudi riyal	0.2666	0.2663	0.2665
Arabic Emirates Dirham	0.2723	0.2723	0.2723
Euro	1.1836	1.1370	1.2299

The following tables demonstrate the sensitivity to a reasonably possible change in EUR and EGP exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities, including inter company positions. The Group's exposure to foreign currency changes for all other currencies is not material.

As of 31 December 2021, if the functional currencies had strengthened/weakened by 10 percent against the Euro and 10 percent against the Egyptian Pound with all other variables held constant, the translation of foreign currency receivables, cash and cash equivalents, payables and loans and borrowings that would have resulted in an increase/decrease of USD 9.0 million of the profit of the year ended 31 December 2021.

31 December 2020 \$ millions	Change in FX rate*	Effect on profit before tax**	Effect on equity**
EUR - USD	10%	13.5	38.3
EGP - USD	10%	9.6	-

31 December 2021 \$ millions	Change in FX rate*	Effect on profit before tax**	Effect on equity**
EUR - USD	10%	26.9	38.9
EGP - USD	10%	(17.9)	-

* Determined based on the volatility of last year for the respective currencies.

** Effects are displayed in absolute amounts.

Interest rate risk

The Group's cash flow interest rate risks arise from the exposure to variability in future cash flows of floating rate financial instruments. The Group reviews its exposure in light of global interest rate environment after consulting with a consortium of global banks.

The Group calculates the impact on profit or loss of a defined interest rate shift. The same interest rate shift is used for all currencies. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As of 31 December 2021, if the interest rate had strengthened/weakened by 10 percent with all other variables held constant, the interest cost that would have resulted in an increase/decrease of USD 2.0 million of the profit of the year ended 31 December 2021.

\$ millions	Change in interest rate	31 December 2021	31 December 2020
Effect on profit before tax	10%	(2.0)	(2.1)
	10%	2.0	2.1

Categories of financial instruments

\$ millions	Note	31 December 2021		31 December 2020	
		Financial assets / liabilities at amortized cost	Derivatives at fair value	Financial assets / liabilities at amortized cost	Derivatives at fair value
Assets

Total		2,993.9	-	2,645.5	-

All financial instruments are in the fair value hierarchy category level 2, there were no transfers between the fair value hierarchy categories.

6.4 Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, share premium, retained earnings and non-controlling interest of the Group. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary shareholders. The Group's net debt to equity ratio at the reporting date was as follows:

\$ millions	Note	31 December 2021	31 December 2020
Loans and borrowings	(18)	64.1	115.2
Less: cash and cash equivalents	(14)	505.7	473.8

Cost	13.8
At 1 January 2021	13.8
Movements in the carrying amount:	
Additions	-
Impairment	-
At 31 December 2021	-
Cost	13.8
Impairment	-
At 31 December 2021	13.8

On 31 July 2012, the Group acquired the Weitz Company LLC, a United States general contractor based in Des Moines, Iowa, resulting in USD 12.4 million of goodwill. The transaction was completed on 12 December 2012. On 2 April 2015, the Group acquired Alico resulting in USD 1.4 million of goodwill.

Goodwill was tested for impairment in the 4th Quarter of 2021. No impairment was recorded in the year 2021. The impairment test is based on cash-flow projections of the five year plan. Key assumptions used in the projections are:

- i. Revenue growth: based on expected growth in 2022 as a result of development in backlog and expected general market growth in the USA.
- ii. Margin development: based on actual experience and management's longer-term projections.

The terminal value was calculated using a long-term average market growth rate of 2.5%. The estimated cash flows are discounted to their present value using a weighted average cost of capital of 6.0%. An increase or decrease of 100 basis points in the assumed WACC or the terminal growth rate would not have resulted in an impairment.

9. Trade and other receivables

\$ millions	31 December 2021	31 December 2020
Trade receivables (gross)	663.7	824.6
Allowance for trade receivables	(10.6)	(12.1)
Trade receivables (net)	653.1	812.5
Trade receivables due from related parties (Note 27)	24.1	22.9
Prepayments	14.8	12.7
Other tax receivable	89.7	75.5
Supplier advanced payments	281.0	194.2
Other investments	3.5	2.3
Retentions	305.9	284.9
Other receivables	137.1	115.2
Total	1,509.2	1,520.2
Non-current	46.8	47.0
Current	1,462.4	1,473.2
Total	1,509.2	1,520.2

The carrying amount of 'Trade and other receivables' as at 31 December 2021 approximates its fair value.

Prepayments relate for the largest part to the amounts prepaid to sub-contractors, retentions related for the largest part to amounts withheld

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

by customers resulting from contractual clauses.

The aging of gross trade receivables at the reporting date were as follows:

\$ millions	31 December 2021	31 December 2020
Neither past due nor impaired	366.9	458.1
Past due 1 - 30 days	46.3	43.6
Past due 31 - 90 days	52.3	87.2
Past due 91 - 360 days	93.6	114.9
More than 360 days	104.6	120.8
Total	663.7	824.6

Management believes that the unimpaired amounts that are past due by more than 30 days are collectible in full, based on historic payment behaviour and extensive analysis of customer credit risk, including underlying customers' credit ratings if they are available.

The movement in the allowance for impairment in respect of trade receivables during the year ended 31 December 2021 was as follows:

\$ millions	2021	2020
At 1 January	(12.1)	(12.3)
Provisions no longer required	1.6	1.7
Provisions formed	(0.3)	(2.0)
Provisions used	-	0.3
Other	0.2	0.2
At 31 December	(10.6)	(12.1)

10. Equity accounted investees

The following table shows the movement in the carrying amount of the Group's associates and joint ventures:

\$ millions	2021	2020
At 1 January	419.4	430.0
Share in results	27.8	(3.2)
Dividends	(1.9)	(15.0)
Disposal of investment	(5.1)	-
Effect of movement in exchange rates	(13.8)	7.6
At 31 December	426.4	419.4

The entity disclosed under 'Equity accounted investees' that is significant to the Group is BESIX.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

BESIX Group (BESIX)

Established in 1909 in Belgium, BESIX is a global multi-service group offering engineering, procurement and construction (EPC) services. BESIX operates in the construction, real estate and concession sectors in 15 countries focusing on Europe, Africa, the Middle East and Australia. Their core construction competencies include buildings, infrastructure and environmental projects, industrial civil engineering, maritime and port works and real estate development. In addition to EPC services, BESIX is active in real estate development and holds concessions in several Public Private Partnerships (PPP) and design, build, finance, and maintain/operate (DBFM) contracts, through which it develops, operates and maintains projects.

The below table summarizes the financial information of BESIX based on the percentage of interest the Group has in it:

BESIX Group 50% \$ millions	2021	2020
Non-current asset	419.4	404.7
Current asset	1,449.1	1,336.7
Non-current liabilities	(307.0)	(353.3)
Current liabilities	(1,172.6)	(1,005.2)
Net assets at 31 December	388.9	382.9
Construction revenue	1,787.8	1,586.7
Construction cost	(1,772.1)	(1,592.9)
Net profit (loss) for the year ended 31 December	15.7	(6.2)

The Group has interests in a number of equity accounted investees including the following:

Name	Parent	Country	Participation %
BESIX Group	OC IHC3 B.V.	Belgium	50.0
Medrail Ltd.	Orascom Construction Holding Cyprus	UAE	50.0
Sidra Medical Center (see note 26)	Contract Cyprus	Qatar	45.0

Current liabilities	(1,194.3)	(1,021.7)
Net assets at 31 December	426.4	419.4
Income	1,828.6	1,618.7
Expense	(1,800.8)	(1,621.9)
Net profit (loss) for the year ended 31 December	27.8	(3.2)

Transaction between Group entities and associates / joint ventures

There are no significant transactions between entities of the group and the associates / joint ventures, except for the investments in and the dividends received from these associates and joint ventures.

11. Income taxes

11.1 Income tax in the statement of profit or loss

The income tax on profit before income tax amounts to USD 42.5 million (31 December 2020: USD 40.5 million) and can be summarized as follows:

\$ millions	31 December 2021	31 December 2020
Current tax	44.5	42.5
Deferred tax	(2.0)	0.9
Tax Credit	-	(2.9)
Total income tax in profit or loss	42.5	40.5

Reconciliation of effective tax rate

OC PLC's operations are subject to income taxes in various foreign jurisdictions, the statutory income tax rates vary from 0.0% to 28.0%.

Reconciliation of the effective tax rate can be summarized as follows:

\$ millions	31 December 2021	%	31 December 2020	%
Profit before income tax	167.8		137.6	
Tax calculated at weighted average group tax rate	(45.9)	27.3	(34.9)	25.4
Reduction (Recognised) in deferred tax asset	2.0	(1.2)	(0.9)	0.7
Tax credit	-	-	2.9	(2.1)
Other	1.4	(0.8)	(7.6)	5.5
Total income tax in profit or loss	42.5	25.3	40.5	29.4

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

11.2 Deferred income tax assets and liabilities

The majority of the deferred tax assets of USD 41.1 million (31 December 2020: USD 39.0 million) relate to carried forward tax losses. The carried forward losses recognized in the statement of financial position is expected to be realized in the period 2022-2026.

12. Inventories

\$ millions	31 December 2021	31 December 2020
Finished goods	3.3	3.1
Raw materials and consumables	271.3	252.2
Fuels and others	6.2	5.3
Real estate	26.5	27.5
Total	307.3	288.1

During the year ended 31 December 2021, the total write-downs amount to USD 10.2 million (31 December 2020: USD 10.3 million), which all related to raw materials.

The real estate relates to the land owned by Suez industrial Development Company in Egypt, which owns and develops an industrial park.

13. Contracts work in progress / billing in excess of construction contracts

\$ millions	31 December 2021	31 December 2020
Costs incurred on contracts (including estimated earnings)	27,342.3	24,346.1
Less: billings to date (Net)	(26,542.4)	(23,875.4)
Total	799.9	470.7

Presented in the consolidated statements of financial position as follows:

Construction work in progress - current assets	1,099.5	854.5
Billing in excess of construction contracts - current liabilities	(299.6)	(383.8)
Total	799.9	470.7

14. Cash and cash equivalents

\$ millions	31 December 2021	31 December 2020
Cash on hand	1.4	2.3
Bank balances	498.9	467.1
Restricted funds	1.6	0.6
Restricted cash	3.8	3.8
Total	505.7	473.8

Restricted funds

The restricted amounts mostly relate to letters of credits for OCI Saudi Arabia (USD 0.7 million) and letter of guarantee for OC Algeria (USD 0.1 million), United Holding Company (USD 0.8 million).

Restricted cash

Restricted cash relates to amounts withheld in relation to amounts restricted for use for an amount of USD 3.8 million as collateral against certain loans and trade finance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

15. Share capital

The movements in the number of shares (nominal value USD 1 per share) can be summarized as follows:

	2021	2020
At 1 January - fully paid	116,761,379	116,761,379
At 31 December - fully paid	116,761,379	116,761,379

At 31 December 2021	7.7	5.9	45.5	59.1

Warranties

The warranties are based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

Other (including claims)

The Group is involved in various litigations and project related disputes. In cases where it is probable that the outcome of the proceedings will be unfavorable, and the financial outcome can be measured reliably, a provision has been recognized. Reference is made to Note 26 for detailed information with respect to major ongoing litigations and claims.

21. Cost of sales and selling, general and administrative expenses

i. Expenses by nature

\$ millions	31 December 2021	31 December 2020
Changes in raw materials and consumables, finished goods and work in progress	2,642.4	2,549.8
Employee benefit expenses (ii)	578.1	514.6

Maintenance and repairs	53.6	49.3
Consultancy expenses	17.3	12.8
Other	49.4	61.0
Total	3,388.9	3,234.7

The expenses by nature comprise 'cost of sales' and 'selling, general and administrative expenses'.

ii. Employee benefit expenses

\$ millions	31 December 2021	31 December 2020
Wages and salaries	466.0	428.9
Social securities	4.4	4.2
Employee profit sharing	1.8	1.5
Pension cost	6.9	6.3
Other employee expenses	99.0	73.7
Total	578.1	514.6

During the year ended 31 December 2021, the average number of staff employed in the Group converted into full-time equivalents amounted to 21,483 permanent and 40,274 temporary employees.

A Long-Term Incentive Plan ("LTIP") to attract, motivate and retain key employees in the organization by providing market competitive compensation packages has been put in place in June 2016. Under the plan target awards will be granted annually to executives and senior

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

management and employees in critical positions or high performers. These awards will carry a 3-year vesting period. They will be focused on EBITDA, cash flow from operations and share performance. The plan is cash-settled; no transfer of equity instruments will take place under this plan.

Some of the Group's subsidiaries in the United States of America contribute to multi-employer defined benefit plans administered by unions that provide pension and post-retirement health and welfare benefits to employees, based on a defined dollar amount per hour. The Group has availed the exemption of IAS 19, para 34, to account for the contributions to these multiemployer defined benefit plans as defined contribution plans, as sufficient financial information is not publicly available with regards to these plans. The contribution to these plans for the financial year 2021 is USD 6.8 million and the expected contribution to these plans for the financial year 2022 is USD 7.0 million. The average contribution by Group's subsidiaries to multiemployer benefit plans is assessed to be less than 5% of the total contributions of the respective plans.

22. Other income

\$ millions	31 December 2021	31 December 2020

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

25. Segment reporting

The Group determines and presents operating segments on the information that internally is provided to the Chief Executive Officer during the period. The Group has three reportable segments, as described below. Each of the segments is managed separately because they require different operating strategies and use their own assets and employees. Factors used to identify the Group's reportable segments, are a combination of factors and whether operating segments have been aggregated and types of products and services from which each reportable segment derives its revenues.

Segment revenues have been presented based on the location of the entity which is managing the contracts.

BESIX is presented as part of 'equity accounted investees', therefore in the above schedule only the income from equity accounted investees and the asset value are reflected. For further information with respect to liabilities, revenues and cost, reference is made to note 10.

The geographic information above analysis the Group's revenue and non-current assets by the Company where the activities are being operated. The Orascom Construction Group has customers that represent 10 percent or more of revenues:

Percentage	31 December 2021	31 December 2020
Egyptian Government	56.8%	52.2%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

26. Contingencies

26.1 Contingent liabilities

26.1.1 Letters of guarantee / letters of credit

Letters of guarantee issued by banks in favor of others as at 31 December 2021 amount to USD 2,126.0 million (31 December 2020: USD 1,773.1 million). Outstanding letters of credit as at 31 December 2021 (uncovered portion) amount to USD 91.9 million (31 December 2020: USD 75.3 million).

Certain of our sub-holdings have put general performance guarantees for the execution of more significant projects by our subsidiaries.

As of 31 December 2021, mechanic liens have been received in respect of one of our US project for a total of USD 7.3 million (31 December 2020: USD 5.0 million).

26.1.2 Litigations and claims

In the ordinary course of business, the Group entities and joint ventures are involved in some arbitration or court cases as defendants or claimants. These litigations are carefully monitored by the entities' management and legal counsels, and are regularly assessed with due consideration for possible insurance coverage and recourse rights on third parties. In cases where it is probable that the outcome of the proceedings will be unfavourable, and the financial outcome can be measured reliably, a provision has been recognized in the financial statements which is disclosed in note 20 'Provisions'. It should be understood that, in light of possible future developments, such as: (a) potential additional lawsuits, (b) possible future settlements, and (c) rulings or judgments in pending lawsuits, certain cases may result in additional liabilities and related costs. At this point in time, OC PLC cannot estimate any additional amount of loss or range of loss in excess of the recorded amounts with sufficient certainty to allow such amount or range of amounts to be meaningful. While the outcome of said the cases, claims and disputes cannot be predicted reliably, we believe, based upon legal advice and information received, that the final outcome will not materially affect our consolidated financial position of as at 31 December 2021 but could be material to our results of operations or cash flows in any one accounting period.

The Group is also a party to certain potential claims from customer and, where necessary, makes adequate provisions against any potential claims. Such provisions are reassessed regularly to include significant claims and instances of potential litigations. Based on the review of opinion provided by the legal advisors / internal legal team, management is of the opinion that no material cash outflow in respect of these claims is expected to be paid by the Group in these legal cases over and above the existing provision recognized as of the reporting date. The Group has elected not to present the complete disclosures as required by IAS 37 "Provision and Contingent Liabilities and Contingent Assets" as management is of the view that since legal claims are sub-judice and are disputed; therefore this information may be prejudicial to their position on these matters.

Certain other contingent liabilities may arise during the normal course of business, which based on the information presently available, either cannot be quantified at this stage of in the opinion of the management is without any merit. However, in the opinion of management, these contingent liabilities are not likely to result in any cash outflows for the Group.

26.1.3 Sidra Medical Center

The contract for the design and build of the Sidra Medical and Research Centre in Doha, Qatar, was awarded by the Qatar Foundation for Education, Science & Community Development (the "Foundation") in February 2008 to the associate owned by Obrascón Huarte Lain (55%) and Contrack Cyprus Limited (45%), for a total contract value of approximately USD 2.4 billion. The project was more than 95% complete and is not part of the Construction Group's backlog as the project is accounted for under the equity method.

In July 2014, the consortium received a Notice of Termination from the Foundation. On 23 July 2014, the Foundation commenced arbitration proceedings against the associate by serving a Request for Arbitration with the ICC (seat in London) dated 23 July 2014. Since 2014, several hearings and expert meetings took place and partial awards have been issued by the tribunal. The most recent hearings were held in May 2021 and June 2021. The main evidentiary hearing is ongoing and expected to be completed by April 2022. The final award is not expected before Q3 2022.

In August 2017, the Foundation again served a Request for Arbitration, this time in parallel proceedings against OCI SAE with the ICC (seat in London). The claims made by the Foundation in this new arbitration arise in connection with a Parent Company Guarantee (the "PCG") issued by OCI SAE on 7 February 2008. The Foundation alleged that the terms of the PCG protect it in respect of liabilities and obligations of Contrack (Cyprus) Limited on the Project. This arbitration is on hold since March 2020 pending decision in the main arbitration in the

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

paragraph above. If claims are awarded against Contrack (Cyprus) Limited in that arbitration, the Tribunal will have to consider its implications on OCI SAE in this arbitration.

26.1.4 ERC Refinery Project

In November 2014, Orascom Construction SAE (OC) and GS Engineering and Construction Corp. "Egypt" ("GS"), the main contractor appointed by the owner Egyptian Refining Company (Takrir) SAE, entered into a subcontract agreement and three subsequent amendments for the Civil Works and Structural, Mechanical and Piping works in relation to Areas 1 and 3 of ERC Refinery Plant in Mostorod Egypt. The works were fundamentally delayed and disrupted by GS resulting in OC submitting several Extension of Time and costs claims. In February 2019, GS instructed OC to demobilize and "step-back" from all remaining Works.

In March 2019, OC filed the Request for Arbitration against GS before the ICC (London). In May 2019, GS filed an Answer and Counterclaim. On 11 July 2019, the Tribunal was constituted. In January 2020, OC submitted its Statement of Case ("SoC"), and GS submitted its Statement of Counterclaim ("SoCC"). In June 2020, OC and GS filed their Statements of Defense to Counterclaims, and in August 2020, OC and GS filed their Replies to Statement of Defense to Counterclaim. Expert Reports on Quantum and Delay were submitted in March 2021.

The hearing took place in May 2021. Subsequent to year end, the Tribunal issued a partial award in which OC was the net winner. Further, OC was awarded prolongation/disruption costs which are yet to be quantified, and which will be decided by the Tribunal in a separate and final award. The Tribunal is yet to finalise the procedural calendar for the next steps.

27. Related party transactions

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

In addition to the related party transactions in the table above, the company incurs certain operating expenses for immaterial amounts in relation to services provided by related parties.

27.1 Demerger of Construction and Engineering business

27.1.1 General

The demerger from OCI N.V. was completed successfully in March 2015, with the listing of shares on Nasdaq Dubai as of 9 March 2015 and a secondary listing on the Egyptian Exchange as of 11 March 2015.

After the demerger, OCI N.V. and OC PLC each operate as separately listed companies. There are no cross-directorships, other than Jérôme Guiraud who is a non-executive director in both. The senior management teams of OCI N.V. and OC PLC are different and all agreements between the two companies are executed based on agreed terms.

Services between OCI N.V. and OC PLC Group entities in the areas of accounting, treasury, information technology, etc, are payable on a cost-plus basis.

OC PLC and OCI N.V. are party to continuing commercial arrangements. The existing commercial arrangements were entered into on agreed terms and are not materially different from the terms on which OC PLC has contracted with other customers. The most relevant are listed below:

27.1.2 Conditional sale agreement

On 5 February 2015, OC IHC 4 B.V. (a subsidiary of OC PLC) and OCI MENA B.V. (a subsidiary of OCI N.V.) entered into an Agreement for the Conditional Sale and Purchase of the Share Capital of Construction Egypt. Under the Conditional Sale Agreement, OCI MENA B.V. has agreed to sell to OC IHC 4 B.V. all of the shares it will receive as a result of the Egypt Demerger. These shares (the Construction Egypt Shares) will be shares in an Egyptian joint stock company (Construction Egypt) which, as a result of the Egypt Demerger, will hold the construction projects and construction business of Orascom Construction Industries S.A.E in the Middle East and North Africa which, in order to comply with local law and regulation, cannot be transferred to OC PLC prior to completion of the Demerger. The transfer of the Construction Egypt Shares will be conditional on the completion of the Egypt Demerger, the approval of Egyptian Financial Supervisory Authority ("EFSA") regarding the issue of the Construction Egypt shares to OCI MENA B.V. and incorporation of Construction Egypt. In addition, OCI MENA B.V. commits to appoint management personnel in the construction operations, such personnel to be nominated by OC IHC 4 B.V.; to appoint accounting personnel responsible for the preparation of the carve out financials of the construction operations, such personnel to be nominated by OC IHC 4 B.V., and to vote on the board of directors of Orascom Construction Industries S.A.E. in matters related to the construction operations based on the recommendation of OC IHC 4 B.V. The Conditional Sale Agreement also provides for the economic benefits/liabilities of the Construction Egypt Shares including the underlying Relevant Construction Projects (together with the right to any dividends) to pass from OCI MENA B.V. to OC IHC 4 B.V. with effect from the date of the Conditional Sale Agreement as if such shares had been in existence since 30 September 2014. This transfer of economic benefit will remain in force until the earlier of completion of the Egypt Demerger and transfer of the Construction Egypt Shares to the Company and completion of all of the Relevant Construction Projects, while any new awards are sought through wholly-owned subsidiaries of OC PLC.

27.1.3 Tax indemnity agreement

On 6 February 2015, OC PLC and Orascom Construction Industries S.A.E. (a subsidiary of OCI N.V.) entered into a tax indemnity agreement which sets out the obligations of the parties in respect of the tax claim lodged by the tax authorities in Egypt relating to the sale of the Orascom Construction Industries S.A.E.'s cement business to Lafarge SA in 2007. The parties have agreed that, to the extent that any liability is incurred by Orascom Construction Industries S.A.E. in relation to the Tax Claim (including the costs of dealing with the Tax Claim), this will be shared between the parties on a 50%/50% basis. In addition, to the extent that any recoveries, including interests, are made in relation to the Tax Claim, these will be shared between the parties on a 50%/50% basis (excluding the amount of EGP 2.5 billion for which it was announced that the rights will be transferred to Tahya Misr social fund in Egypt).

27.2 OCI Foundation and Sawiris Foundation

The OCI Foundation invests company resources in educational programs that improve the communities in which the company operates. OCI has cultivated strong ties with several leading universities, including the University of Chicago (Onsi Sawiris Scholars Exchange Program), Stanford (The American Middle Eastern Network Dialogue) and Yale (Master of Advanced Management program and Global Network for Advanced Management program).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Furthermore, the Sawiris Foundation for Social Development also provides grants to fund projects implemented by charitable organizations, educational institutions, local government and private business.

28. Remuneration of the Board of Directors (Key management personnel)

During the year ended 31 December 2021, we considered the members of the Board of Directors (Executive and Non-executive) and the senior management to be the key management personnel as defined in IAS 24 'Related parties'. The total remuneration of the key-management personnel for the year ended 31 December 2021 amount to approximately USD 13.0 million.

29. List of principal subsidiaries, associates and joint ventures

Companies	Country	Percentage of interest	Consolidation method
Cementech Limited	BVI	100.00	Full

Furthermore, OC PLC has various holding companies in the Netherlands and the countries it operates in.

On 26 January 2021, the interim dividend of USD 0.21 per share which has been approved by board of directors' on 30 December 2020 amounting to USD 24.5 million had been paid. On 19 May 2021, the shareholders' at the Annual General Meeting had approved a dividend of USD 0.2313 per share amounting to USD 26.7 which had been paid in 10 August 2021. On 6 December 2021, the board of directors' has approved an interim dividend of USD 0.2313 per share amounting to USD 27.0 which has been paid in 31 January 2022, bringing total dividends announced in FY 2021 to USD 0.4626 per share.

30. Subsequent Event

The Shareholders of Orascom Construction PLC, in the Extraordinary General Meeting held on 27 December 2021, approved the acquisition of 100% of the total share capital of Orascom Trading (S.A.E), National Equipment Company (S.A.E) and Orascom Free Zone - Onsi Sawiris and Partners (Limited Partnership Company), together referred to the "Services" Group, for a total cash consideration of USD 35,000,000 (United States Dollars thirty-five million). The execution of the sale and purchase agreement(s) and other required legal documents were completed subsequent to year-end.

The "Services" entities are leading companies in the Egyptian market working in the field of commercial agencies of equipment.

31. Impact of COVID-19

The coronavirus outbreak since early 2020 has brought additional uncertainties in the Group's operating environment and continue to impact the Group's operations in the areas we operate in, with our main activities in Egypt and USA. The Group has formed a Crisis Management Committee to ensure the safe and stable continuation of its business operations which include measures to address and mitigate any identified key operational and financial issues. These contingency measures include amongst others communication plans with our clients,

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

mitigation plans at project level to minimize the impact of possible slowdowns, if any, and measures to safeguard the welfare of our employees and subcontractor staff at our project sites and offices.

Our major projects in Egypt and USA have remained operational throughout the period with minimum disruption based on the initiatives implemented by the Group and supported by the mandates issued by the respective governments. We have also put in place effective business continuity and remote working plans enabled by the right technologies and systems to ensure uninterrupted operations across the Group.

Based on our assessment of the COVID-19 impact, there are no significant impact in its financial position and performance as at and for the year ended 31 December 2021. Further, we concluded that significant changes are not required as of 31 December 2021 in its key accounting judgements and estimates from those applied in the last annual consolidated financial statements as of 31 December 2020.

Furthermore, we continue to assess the level of future credit-lines and whether additional lines need to be made available to manage our liquidity. The Group will keep these contingency measures under review as the situation is fast evolving, the effect of the outbreak is by nature subject to certain degree of uncertainty.

Dubai, UAE, 21 March 2022

The Orascom Construction PLC Board of Directors,

Jérôme Guiraud	Chairman
Osama Bishai	Chief Executive Officer
Sami Haddad	Member
Johan Beerlandt	Member
Wiktor Sliwinski	Member
Nada Shousha	Member
