

**On the occasion of the safer internet day**  
**9.63% Increase in the number of Proportion of Households Using**  
**broadband Internet in 2022**

- Central Agency for public mobilization and statistics issued on 13 / 2 /2023 a press release on the occasion of the safer Internet day. As the world started to celebrate this day since 2005, almost 130 countries around the world in the second Tuesday of February annually which aims to encourage respectful networking and safer usage for Internet and mobiles phones, especially among children and young people who are the targeted group for such day sponsored by (Insafe) network as one of the of the EU project (SAFE BORDERS Project) initiatives. This year's 2023 theme "Want to talk about it? Making space for conversations about life online".

- **Most important Indicators are as follows:**

1. Total number of subscribers in broadband internet reached 11.04 million at December 2022 versus 10.07 million at December 2021 with increasing percentage 9.63%. That increasing is due to enhancing the service from internet service providers.
2. Total number of subscribers in mobile internet reached 71.50 million at December 2022 versus 65.51 million at December 2021 with increasing percentage 9.14%. That increasing is due to mobile services high availability.

To apply this year's theme "Want to talk about it? Making space for conversations about life online". we have to know that internet contains an endless supply of knowledge and information that lets you learn about almost any topic or reply to any question you may have. Using a search engine like Google, you can ask virtually any question and find a web page with an answer or information about that question. There are also millions of videos on sites like YouTube explaining various topics and contained online.
